

Level 3 Supplier Curriculum Accreditation Review Process

Any organization seeking RV Technical Institute recognition as an approved Level 3 Accredited Training Provider must submit the following information for review and approval of the Curriculum Committee. Each approved Level 3 course must be re-approved every three years.

Should you have any questions, please contact Tracy Anglemeyer at 574-549-9069, cell phone 248-760-8685 or by e-mail at tanglemeyer@rvti.org.

Please submit this form to: RVTI-info@RVTI.org

Level 3 Specialty:

Total Class Hours:

(See page 3)

Proposed Start Date:

Recertification: YES or NO

Required Criteria: *Please also attach syllabus*

Training schedule website or registration link:

If there is no website, please provide trainers' contact information for RTVI website listing:

The RV Industry Association and the RV Technical Institute do not endorse any trainings for recertification or advanced Level 3. We assume no responsibility or liability for accuracy or quality of the approved trainings. The approval is granted by a group of volunteer Level 4 Master Certified Technicians that evaluate the submission based solely on its relevance to the job of an RV Service Technician and if it is advanced training beyond the Level 1 & Level 2 pre-requisite training.

Level 3 providers must retain a Master list of technician attendees' completion date for 5 years.

Falsifying any information, or any portion of curriculum, could result in RVTI Curriculum Committee review of all prior approved trainings and/or loss of RVTI recognition.

Provide a sample of the Certificate including the following:

- Company letterhead, company logo, and Watermark
- Date of completion
- Typed Name of Technician
- Approved Hours
- Category; Appliance, Electrical, Electronics, Chassis, Slideout
- Trainers Name and Signature
